hi

DEP Steve Watson came Friday to check
and didn't smell anything during the day--
told them it was at night--
now I heard from Kevin Costello
of DEP air quality
and he will come tomorrow and I am meeting him
to smell it;
I came yesterday and smelled it strong from the road
during the day;
will stop by if need to with him to see you;
EPA referred me to DEP for the air quality concerns--
when I spoke with them;
EPA was not much help;
got the run around from one person to another in EPA and DEP--
one person didn't know what the other does or think they do--
lots of phone calls and talking to different people.

was released from Tyler last night around dinner time, I believe. The dirty gas is being vented off during the day as well, I hear it whenever I'm outside, but it seems louder and almost constant at night. can smell it, I just instantly react with my eyes and sinuses. My kids had windows open and we all woke up feeling like crap, like allergy symptoms but worse, lots of eye irritation, one bloody nose, everyone talking like a head cold, sore throat, swollen glands, raspy breathing. We don't normally have early spring allergy problems. I have been talking with EPA agent Martin Swartz, but lost his number, is it the same as this guy?

Gave Nick the info this morning,

after I called EPA hotline last week

and he took the info and the site on Carter Road at Gesford Well

and will be sending this to the agent that handles our area

and they will call the people next to this impacted by this--

Nick's number is 304- 345- 2200
